PROFESSIONAL SUMMARY

Data-oriented IT professional with a BCA in Data Science and 1.5 years of experience at LTIMindtree, where I applied analytical skills in operational reporting, incident trend analysis, and Excel dashboards alongside technical support responsibilities. Experienced in incident management, troubleshooting, and collaborating with cross-functional teams to ensure timely resolution of technical issues while maintaining SLA standards. Published IEEE researcher with hands-on ML/deep learning project experience. Currently seeking opportunities in data analytics or data science roles to transition analytical capabilities into a dedicated data-focused position.

WORK EXPERIENCE

LTIMindtree – Engineer, Cloud & Infra Management **Sep 2024 - Present**
Bangalore, India

- Supported enterprise platforms (Microsoft 365, Okta) for US-based clients, managing authentication, access control, and service availability issues with a focus on minimizing business disruption.
- Managed end-to-end ticket lifecycle using Zendesk, prioritizing incidents based on SLA and business impact.
- Analyzed incident trends and operational datasets using Microsoft Excel to identify recurring issues, support root cause analysis, and improve resolution efficiency.
- Generated operational performance reports and dashboards in Excel and presented insights using PowerPoint for management review.
- Coordinated with client stakeholders and internal teams to ensure SLA compliance and timely resolution of high-impact incidents.
- Administered user access and identity management through Okta, ensuring security and compliance.
- Standardized operational workflows by authoring SOPs and knowledge base articles, reducing average handling time for recurring issue categories.
- Acted as backup SME, supporting escalation management and cross-team coordination.

PROJECTS & RESEARCH

PUBLICATION:

- **Classification of Indian Medicinal Flowers using MobileNetV2**
  Co-authored and presented a research paper at the 11th International Conference on Computing for Sustainable Global Development (INDIACom 2024), IEEE.
  Developed a deep learning–based image classification model using MobileNetV2, achieving 98.23% accuracy.
  Built and curated a dataset of 3,343 images across 13 medicinal flower classes collected from Kerala and Karnataka.
  Addressed research gaps in lightweight deep learning models for medicinal plant identification.
  Authors: Bipin Nair B J, Arjun B, Abhishek S, Abhinav N M, Varun Madhavan
  DOI: 10.23919/INDIACom61295.2024.10498274

PROJECTS:

- **Classification & Quality Grading of Medicinal Flowers (Final Year Project)**
  Developed computer vision models for medicinal flower classification and quality grading.
  Created a novel dataset of 6,313 images across 28 classes collected from botanical and ayurvedic gardens.
  Built an additional dataset for Hibiscus quality detection (fresh vs dried).
  Applied preprocessing, augmentation, and feature engineering (color, texture, geometric features).
  Trained and evaluated multiple ML/DL models using standard performance metrics.
  Proposed a custom CNN model (FlowerNet) with high classification accuracy.
  Identified Decision Tree–based models as effective for quality classification.

- **Personal Portfolio Website (Ongoing)**
  Designed and developed a personal portfolio website using React, leveraging AI-assisted development tools to accelerate implementation.
  Led content planning, layout structuring, and UI decision-making while refining and testing generated code.
  Applied core front-end fundamentals (HTML, CSS, JavaScript) to understand and customize components.
  Focused on responsive design and clean user experience principles.

CONFERENCE PRESENTATION:

- **IEEE CCEM 2023 – Mysuru, India**
  12th International Conference on Cloud Computing in Emerging Markets
  Presented a Student Project Showcase titled "Classification of Indian Medicinal Flowers Using MobileNetV1."
  Demonstrated application of deep learning for efficient image classification.
  Represented the project to academic and industry participants.

SKILLS

TECHNICAL SKILLS:

- Data & Analytics: Python, SQL, Data Cleaning, EDA, Data Visualization, Machine Learning, Statistical Analysis
- Other: Database Management, Web Development (Basics), R (Basics)
- Tools & Platforms: Microsoft Excel, Power BI, Tableau, PowerPoint, Zendesk, Jupyter Notebook, O365 Admin

PERSONAL SKILLS:

- Analytical Thinking
- Attention to Detail
- Problem Solving
- Teamwork
- Time Management
- Self-learning & Adaptability
- Conflict Resolution
- Pressure Handling

LANGUAGE SKILLS:

- Malayalam – Native
- English – Proficient (IELTS: 7.5 Band)
- Hindi – Proficient
- Tamil – Intermediate

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS IN DATA SCIENCE — **OCT 2021 – JUN 2024**

Amrita Vishwa Vidyapeetham Mysuru Campus

- Major Subject – Data Analytics, Artificial Intelligence, Machine Learning
- CGPA - 7.88

HIGHER SECONDARY (12th) — **JUN 2019 – MAY 2021**

Kendriya Vidyalaya Kollam

- Major Subjects – Mathematics, Computer Science, Physics and Chemistry
- Percentage - 87%

HIGH SCHOOL (10th) — **JUN 2018 – MAR 2019**

Kendriya Vidyalaya Kollam

- Major Subjects – Mathematics, Science
- Percentage – 91.8%

LEADERSHIP & ACTIVITIES

- Rajya Puraskar Awardee, Bharat Scouts & Guides (2018) – Recognized for leadership, community service, and personal development.
- Former member, Bharat Scouts & Guides (2016–2021); participated in scout camps, service projects, and event organization.
- Class Representative – BCA Data Science (2021–2024).
- Held student leadership roles: House Captain, Vice-Captain, CCA Captain, Junior House Captain.
- Member, College Powerlifting Team – Gold Medallist (Inter-Department Deadlift Competition).
- Volunteered in organizing college cultural, sports, and community programs.
- INTERESTS: Fitness, Reading, Travel, Films & Series
